MOHAMED SANJEED

Frontend Developer

Dubai, UAE | +971 54 477 2940 | mohamedsanjeed.k@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Frontend Developer with **2.5 years** of experience, including **nearly 2 years in the UAE**, building high-performance, visually engaging web applications. Specialized in **React.js, Next.js, TypeScript, GSAP**, and the **MERN stack**, with a strong focus on responsive, animation-driven development and smooth, interactive user experiences. Skilled at writing clean, reusable, scalable code and turning design concepts into polished, performant products, with a commitment to continuous learning and modern frontend best practices.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, GSAP, Framer Motion (Motion), Tailwind CSS, shadcn/ui, Material Tailwind, Bootstrap, Responsive Design

State Management & Data Fetching: Redux, Redux Toolkit, RTK Query, Zustand, React Query (TanStack Query)

Backend & Database: Node.js, Express.js, RESTful APIs, MongoDB, Mongoose

Testing & Analytics: Playwright, Google Tag Manager (GTM), Google Analytics (GA)

Tools: Git, GitHub, Firebase, NPM

Familiar With: React Native

PROFESSIONAL EXPERIENCE

Frontend Developer | EUNX Investments LLC Feb 2025 – Present

Full-time, On-site — Dubai, UAE

- Built user interfaces for the company's **trading platform** and its **admin dashboard** using **Next.js, TypeScript, and Tailwind CSS**.
- Developed fully **responsive** pages and fixed responsive issues across different screen sizes and devices.
- Created generic, **reusable components** as part of the **design system** to speed up development and keep the UI consistent.
- Refactored and cleaned up existing code and **debugged UI issues** to keep both products stable and easy to maintain.
- Integrated **Google Tag Manager (GTM)** and **Google Analytics (GA)** to track user activity and events.
- Set up **Playwright** for automated testing to catch bugs early and improve code quality.
- Worked closely with the backend team to integrate **REST APIs** using **RTK Query** and ensure smooth data flow.

React.js Developer | W3 Digital Agency Jan 2024 – Jun 2024

Full-time, On-site — Kerala, India

- Developed **responsive, cross-browser** user interfaces with **React.js**, improving user experience across desktop and mobile devices.
- Integrated **RESTful APIs** and third-party libraries to ensure smooth data flow and added functionality.
- Found and fixed performance issues, making the application faster while keeping the code clean.
- Managed NPM packages and project dependencies, making the development workflow easier for the team.
- Collaborated with cross-functional teams to plan, design, and deliver new features on time.

MERN Stack Developer – Trainee | Techmindz May 2023 – Aug 2023

Traineeship, On-site — Kochi, Kerala, India

- Completed hands-on training in full-stack development using **MongoDB, Express.js, React.js, and Node.js**.
- Built practice applications with authentication, CRUD operations, and REST API integration.

PROJECTS

EUNX Trading Platform & Admin Dashboard — Company Project Live Site

Next.js, TypeScript, Tailwind CSS, RTK Query, Google Tag Manager, Google Analytics, Playwright

- Working on both the **trading platform** and the **admin dashboard** of EUNX Investments LLC, a Dubai-based trading company, as part of the frontend team.
- Convert design files into pixel-perfect, fully **responsive** interfaces and maintain the shared **design system** across both products.
- Integrate **REST APIs** with **RTK Query** in close collaboration with the backend team, and debug and fix UI issues.
- Implemented **GTM** and **GA** tracking, and set up **Playwright** automated testing for the platform.

Urbaan — E-commerce Boutique Website (Frontend) Live Site

React.js, Tailwind CSS, Material Tailwind, Framer Motion (Motion)

- Built the complete frontend of a **live e-commerce platform** for a women's fashion boutique, including product search, filters, checkout flow, and real-time cart updates.
- Developed the admin dashboard UI for managing products, orders, categories, and customers.
- Added smooth animations and interactions using **Framer Motion** for a modern shopping experience.
- Integrated REST APIs from the backend team and made the site fully responsive on all devices.

Armaano — E-commerce Web App Live Site

Next.js, TypeScript, Tailwind CSS, shadcn/ui, Firebase, Cloudinary

- Built and deployed a clean, modern e-commerce app with product listing, product details, and cart functionality.
- Used **Firebase** for backend data and authentication, and **Cloudinary** for fast, optimized image delivery.
- Designed a fully responsive UI with Tailwind CSS and shadcn/ui components.

EDUCATION

Bachelor of Computer Applications (BCA) Jun 2020 – Apr 2023

MES Kalladi College, University of Calicut — Kerala, India

MERN Stack Development Certification May 2023 – Aug 2023

Techmindz — Kochi, India
